

Mortars & Screeds

Marshalls

Introducing our Mortars & Screeds business

Closer to you

At Marshalls Mortars & Screeds, we are passionate about providing the finest quality ready-to-use mortars and screeds, coupled with the highest possible levels of customer satisfaction.

We go above & beyond the required testing to make sure we provide the best quality mortars and screed products possible, to give you the confidence and peace of mind you deserve.

Mortars

Our natural and coloured ready-to-use mortars are available in M4, M6 and M12 strengths and are delivered in 0.333m³ tubs.

We are also able to provide natural and coloured mortar as a mason mix, delivered in bulk bag or loose tipped, ready for mixing on site.

Screeds

As well as our standard screeds, we are pleased to be able to offer flowing screeds. Our team of experts are on hand ready to help you get the right screed for your project.

My Marshalls Portal

As part of the customer experience, we have created the 'My Marshalls Portal'. This online service gives you the control to call off from existing sales agreements, amend orders and even track your deliveries!

A world of colour

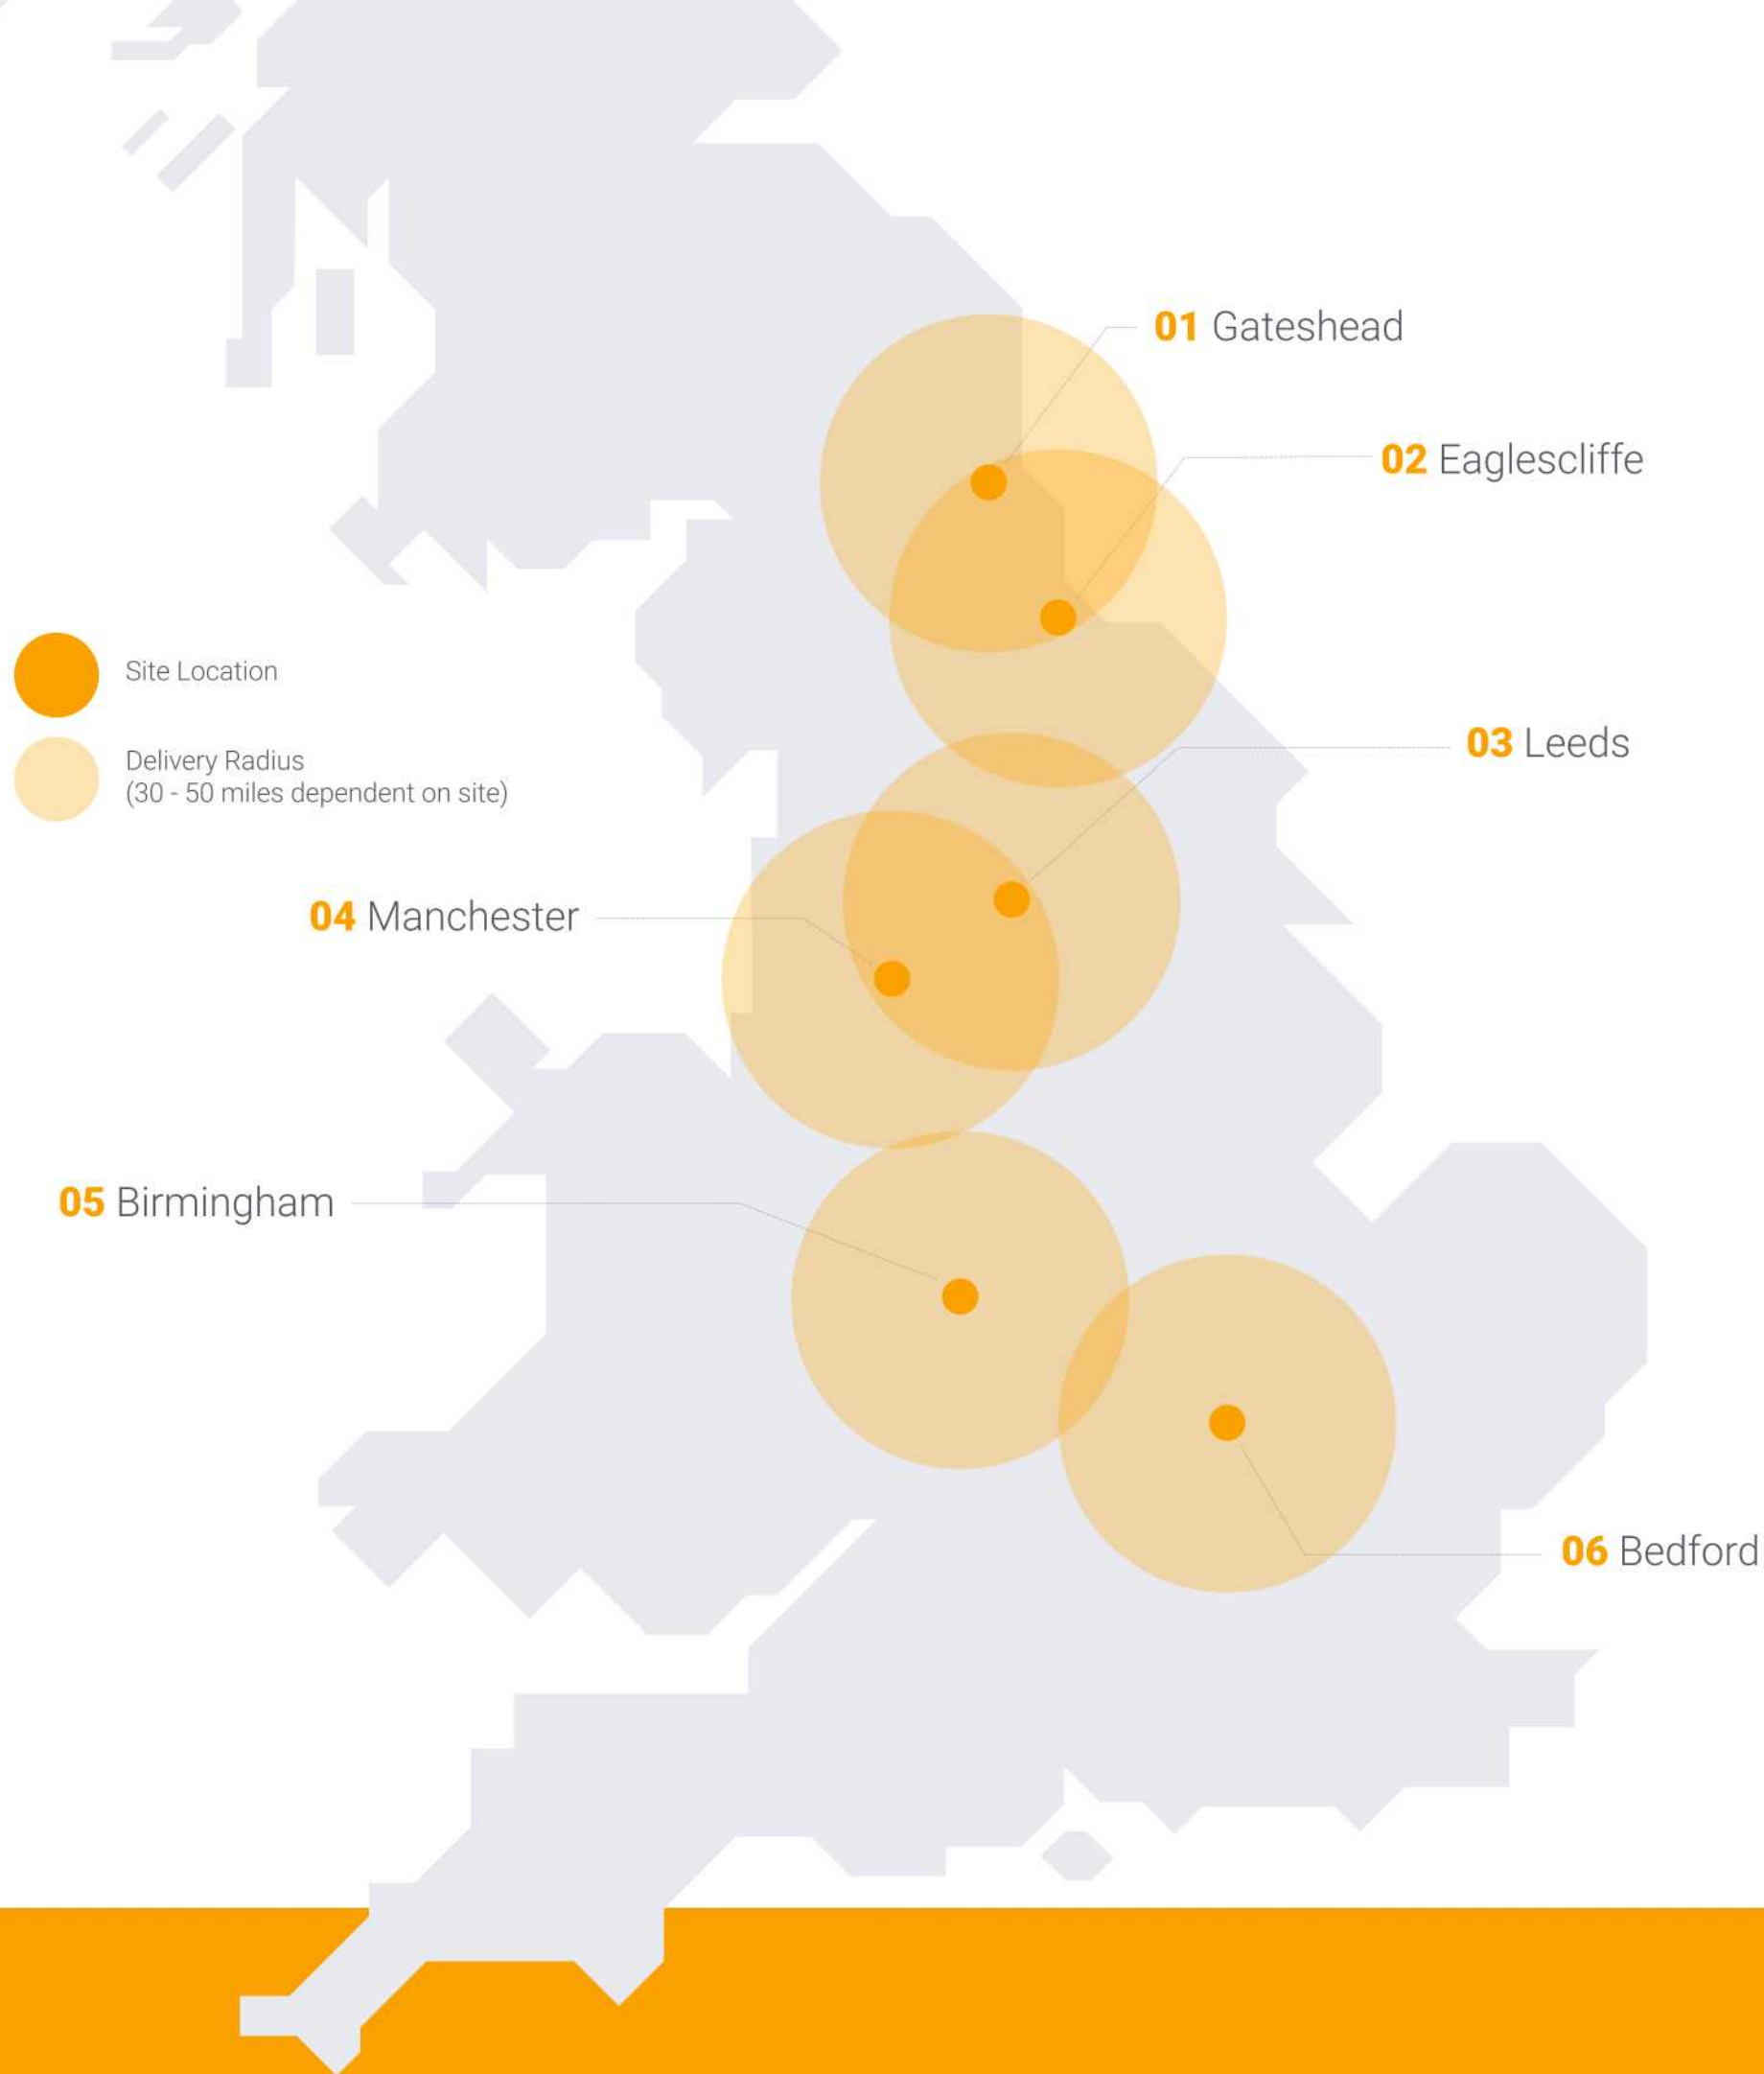

Coloured mortars can help to achieve significant aesthetic improvements to your project. By selecting a coloured mortar you can choose to match or contrast with your chosen brick to create elegant effects.

Our mortars are available in a wide variety of colours and shades to complement any construction material and we offer a free colour matching service and can supply samples to enable effective on-site approval.

Our ready-to-use coloured mortars are computer-batched, pan-mixed and quality assured to ensure consistency and performance. They are highly durable and are designed to last the life of any structure when applied in accordance with the current Codes of Practice.
